

Module for powering up to a maximum of 16 KNX devices connected to the same network. Line decoupling via coil.
Mounting on DIN EN 50022 rail.
The connection to the bus line is performed using a bus terminal.

- 1 Green LED
- 2 Mains supply
- 3 Label carrier
- 4 Bus connection terminal (EIB / KNX output)

TECHNICAL SPECIFICATIONS

Power Supply	Power Supply	230Vac +10/-15%, 50/60Hz
	Consumption	<8VA
	Losses	<3W
Outputs	KNX output	Line decoupled from MAX 16 components
	Nominal voltage	30VDC +1/-2VDC, SELV
	Nominal Current	160mA
	DC current	<450A
Protection type	IP 20	DIN EN 60529
Temperature range	Operating	[-5°C,+45°C]
	Storage	[-25°C,+55°C]
	Transport	[-25°C,+70°C]
Assembly	DIN EN 60715 rail	
Control Signals	Green LED	"ON" LED illuminated
Dimensions	HxLxW mm	90x72x64.5 mm, 4 DIN modules
Certifications	EIB/KNX	

ORDERING CODE **SIN.0047**
